Your Honorable Kollar-Kotally,

I was dismayed when I learned of the proposed judgment that the Department of Justice is considering to accept.

The proposed Judgment does not address the anticompetitive practices that Microsoft was proved to be doing by the appeals court.

I was glad to hear that a Judge threw out Microsoft's proposal that they donate one billion dollars to schools. Imagine a punishment that would enable Microsoft to dramatically weaken Apple Computer's presence in the school systems!

America looks to your wisdom in determining a just punishment and more importantly, ensuring our free market remains truly free from intimidation of monopolistic organizations.

Thank you for your consideration,

Joyce Ferguson  
San Jose, CA 95134
